Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 102 are rejected under 35 U.S.C. 102(b) as being anticipated by Donnelly (USPN 1,142,502).

Donnelly discloses a windmill apparatus comprising:

- a. windmill means mounted to a windmill shaft to rotate said shaft in response to air flow through said windmill means;
- b. the windmill means comprising multiple sets of three windmill blades (figure 2), said blades in a set being attached to one another (42) and mounted to a single hub.

With regard to claim 2, Donnelly discloses all the claimed limitations.

Response to Arguments

3. Applicant's arguments filed 10/04/06 have been fully considered but they are moot in view of Donnelly (USPN 1,142,502).

Allowable Subject Matter

4. Claims 3-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
